Over 1,000 Moved. CINCINNATI, O., June 11.-Dispatches from different points say the yards at Bellaire, Bridgeport and other places were cleared of coal trains to-day, over one thousand cars of coal having cleared from Bellaire alone since the troops arrived. The trains are guarded to Cambridge. Three attempts to wreck coal trains were made between Cambridge and Zanesville so that the troops will be asked to extend their lines beyond the mining districts.

BLOWN UP WITH DYNAMITE. Iron Railway Bridges Destroyed in

Alabama-Others Burned. BIRMINGHAM, Ala., June 11.-The big iron bridge on the Kansas City, Memphis & Birmingham road, at Carbon Hill, was blown up with dynamite to-day. The explosion occurred only a few moments before the morning train reached the bridge. Bridges at Patton, Mabel mines and other points have been burned within a few days and several attempts have been made to burn a long trestle. All these acts are charged to strikers, whose purpose it is to prevent the transportation of coal. The sheriff has gone to Carbon Hill to make ar-

Three companies of the First Regiment were sent to Blue Creek this afternoon on information that a large number of armed men were known to have passed near that point for the purpose of going to the Chinn breek bridge, on the Birmingham railroad, and blowing it up with dynamite. Up to this hour nothing has been heard of the

Another bridge across Chickasaw creek, on the main line of the Kansas City, Memphis & Birmingham, was almost entirely destroyed with dynamite about midnight ast night. This occurred after fast mail No. 4 had passed over. The entire abutment of one end was blown away. This bridge has as yet not been thoroughly repaired, and transferring has been resorted to. The structure is built of iron.

At 1:30 this morning the train walker of the Kansas City, Memphis & Birmingham at Carbon Hill found a trestle two miles beyond that point on fire. This bridge is 150 feet long, and was on fire at both ends. Five bents were destroyed A conference of miners and operators is called for to-morrow, but it is understood the operators will not confer with the men. Negroes are plentiful and are being employed in the several mines, and it looks as if the strikers will not have any offers from those who own and operate mines in

Six bridges have been destroyed by incendiaries in this district within as many days. To-night the railroads have a small army of armed guards who are keeping a close watch on all bridges in the miners' district. A mob of fifty strikers who have been encamped in the woods near Chinese bridge on the Birmingham Mineral railroad, near Blue Creek mines, were halted by four guards last night, drew guns and put the latter to flight. To-night four companies of State troops, under Lieutenant Irwin, were hurried to that place on a spe-cial train, it having been reported that the mob was camping in the woods near there. The troops are scouring the woods, and if they meet the mob a conflict is expected. The situation is growing more threatening

AMERICANS RESCUED.

Four Workmen Who Had Been Cap-

tured by Strikers Retaken. UNIONTOWN, Pa., June 11.-The four American workmen who were taken prisoners by a mob of foreigners at New Haven on Saturday were overtaken at Fairchance and rescued, at noon to-day, by the deputies. The deputies met with no opposition, owing to their numbers, the men giving the workmen without resistance. They were brought here this afternoon and returned to their homes at Leisenring Mine No. 3. When found they were still bearing the placards and were chalk marked from head to foot. Just what torture they were subjected to after the battle Saturday and last night is not known here, but they were a worn and haggard looking lot when rescued. They were taken away from Lemont yesterday while the trouble was in progress and marched to Cool Spring, where they were turned over to the strikers from the Stewart iron works, and there kept and paraded until the leaders learned that the officers had located them. Then they were taken to the southern end and handed over from one crowd to another until landed in the strikers' camp at Kyle. deputies learned their whereabouts having search warrants, went to rescue the imprisoned workmen. The kidnapping is denounced on all sides, even by the friends of the strik-

ers, as the most atroclous and flendish act in the history of the movement, and the fact that the prisoners were Americans is turning public sentiment more strongly against the perpetrators. The deputies are now collecting evidence, and many arrests will be made as soon as the kidnapers can be identified. It is estimated that no less than five hundred strikers handled the workmen from the time they were captured at New Haven until they were rescued to-day. The work-men will be able to identify their captors, and will not fear to appear against them.

The southern end of the county was the scene of many disorders last night. A delegation of strikers visited the banks on George's creek, where part of the coal being shipped over the new State Line road is mined, and broke and burned tools and wheelbarrows. Not being satisfied with

this, they tore out the support at the en-trance to the banks and caved in about A jury has been empaneled by Coroner Batten to hold an inquest on the body of John Mokaff, the Slav killed in yesterday's fight, and a searching investigation will be made. DEPUTIES WITHDRAW.

State Troops Guarding the Mines Near Cripple Creek.

CRIPPLE CREEK, Col., June 11 .- The deputies broke camp and started for Colprado Springs to-day, in accordance with the agreement with General Brooks and Sheriff Bowers. The mines will now be reopened and the militia will act as guards as long as protection is needed. The mine owners will pay \$3 for eight hours. The agreement made between General Brooks and Sheriff Bowers at Cripple Creek does not meet with Governor Waite's approval in all respects. The Governor to-day wired Adjutant-general Tarsney that the troops must not be used as guards at the mines; that receipts must be given the miners for the arms taken from them, and that not more than twenty-five miners must be ar-

SNYDER SENTENCED

MRS. CLOUD'S MURDERER PLEADS GUILTY AND GETS FIVE YEARS.

The Old Riley Home at Greenfield Burned - Men Dynamiting Fish Along Eel River.

Special to the Indianapolis Journal. DANVILLE, Ind., June 11 .- Louis J. Snyder, recently tried here for the murder of Mrs. Olive Cloud, at Indianapolis, pleaded guilty to-day to manslaughter, and was sentenced to five years in prison. He had nothing to say after receiving sentence. The jury on the first trial stood six to six.

Snyder was brought to this city at 6:35 o'clock yesterday evening in the custody of the sheriff of Hendricks county on his way to the Jeffersonville prison. He was found pacing the corridors of the jall last night and chatting pleasantly with the other pris-oners, but declined to talk to representatives of the pres.

FISH DYNAMITING.

Scandalous Violation of the Law Along Eel River. Special to the Indianapolis Journal.

CLAY CITY, Ind., June 11.-The practice of dynamiting, trapping and netting of fish in Eel river is still carried on to an extent which, if not checked, must soon render fishing in this stream profitless. Persons living along the river have it lined with nets and traps, and crowds from a distance come with dynamite and destroy both the large and small fish by hundreds, Anglers report that dead fish in great numbers are seen floating down the stream, supposed to have been killed by dynamite. It is said that many road supervisors, whose duty it is to see that violators of the fish and game laws be prosecuted, wink at the violations, and that some of them even indulge in it themselves. Two or three years ago an organized move was made to have this matter brought to the attention of the State fish commissioner, but nothing was accomplished. A little investigation here will reveal an alarming state of affairs and convince the authorities of the necessity for prompt action.

THE RILEY HOME BURNED. Historic Piece of Property at Greenfield Swept Away.

Special to the Indianapolis Journal. GREENFIELD, Ind., June 11.-Greenfield has again been visited by fire, and an old landmark swept away. This afternoon the brick residence belonging to the estate of the late Capt. Reuben A. Riley caught fire and was burned to the ground. It was occupied by Allen Pherigo, and used as a boarding house. It was built fifty years ago, under the county seminary act of the Legislature, and used for that purpose for many years. When the law was abolished the building in some way reverted to Morris Pearson, who had deeded the land for seminary purposes. The Odd Fellows then bought the building, and it was used by them and other secret societies, including the Know Nothings in 1854, Twenty years ago it was bought by the late Reuben A. Riley, remodeled and used as a residence until his death last winter. The fire is a loss to the estate, as there was no insurance. It was worth \$2,000. The fire is thought to have originated from a spark from a locomotive, as the house was situated near the Panhandle tracks. There was much work done to save other buildings, and at one time the Presbyterian

Church caught fire, but it was extinguished \$30,000 Blaze at Frankton.

Special to the Indianapolis Journal. ELWOOD, Ind., June 11.-Frankton, seven miles south of this city, was visited by a disastrous fire yesterday. Six business houses were destroyed, as follows: Rhodes's restaurant, Burk's gas office, Richwine's butcher shop, Ackerman's restaurant, Kramer's hardware store and Tom Neal's grocery store. The buildings were located on the east side of the main street of the town, and were mostly frame. The cause of the fire is supposed to be the work of incendiaries. This morning two men, one named James and the other unknown were arrested. The fire took place about 3 o'clock in the morning, and there

The loss is \$30,000. Already preparations are being made to rebuild the burnt district. This is the third fire for Frankton within the past year.

GREEN GOODS MEN. Vigo County Victims Confess and Ira Parish Is Arrested.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., June 11.-Captain Hyland, of the police, to-night arrested Ira Parish, who has been wanted for some time on a grand jury indictment, charging him with obtaining money under false pretenses. He and one or two others were confederates of a man in Hamilton, O., who pretended to have plates stolen from the government Bureau of Engraving and Printing on which they printed green-backs. The victim was led to believe that he could buy the stuff at 25 cents on the dollar. When he found that there were no plates and that he had been swindled he was told that he, too, would be prose-cuted if he made complaint and if he still insisted on making trouble for the swindlers. His money was refunded. The authorities have traced \$2,500 or \$3,000 obtained from victims in this vicinity, some of whom went before the grand jury and

Sunday Disorder Near Brookville.

Special to the Indianapolis Journal. BROOKVILLE, Ind., June 11 .- For two summers the Sundays at this place have become the opposite of days of rest, and this season opens up worse than ever. Brawling crowds are brought out from Cincinnati and dumped on picnic grounds, one mile south of town. Intoxicating drinks are sold on the ground, drunkenness, gambling, fast driving and all he evils follow-ing in their train are indulged in by men, women and boys. Yesterday several fights and a cutting affray added to the tumult. Arrests are unheard of.

Corn Crop Badly Damaged.

Special to the Indianapolis Journal. WABASH, Ind., June 11 .- Farmers from all over Wabash county report that the corn crop has been irreparably damaged by the recent heavy frost. It was thought at first the plants had been only slightly nipped, but instead of growing they are, in many fields, dying. The crop under the most favorable conditions in this locality cannot make more than half an average. Wheat, too, has been seriously damaged by the cold, wet weather. Harvest will begin

MULEY HASSAN DEAD

THE SULTAN OF MOROCCO DIES SUD-DENLY WHILE TRAVELING.

Fever and Poison Given as the Cause -His Son Succeeds to the Throne -Revolution Probable.

TANGIER, June 11 .- Muley Hassan, Sultan of Morocco, is dead. He was born in 1821 and succeeded to the Sultanate Sept. 25, 1873. The Sultan was traveling between the capital and Rabal when he died. He suffered from fever for four days previous to his death, and he died on June 5 while giving orders. Some time before his death the Sultan began vomiting, and continued to suffer in this manner until he expired. It is reported that the symptoms of his disease point to poisoning.

The Sultan's son, Abdul Aziz, was shortly afterward proclaimed Sultan by the army and by the ministers who accompanied the late Sultan on his journey.

4:30 p. m .- It is now known that the Sultan died suddenly on June 7, at Tadla, between Morocco and Casablanca. Measures have been taken here to prevent anticipated disorder. Sensational rumors are in circulation as to the cause of the Sultan's death, and the people are becoming excited.

Serious Trouble Apprehended. LONDON, June 12.-A Standard dispatch from Madrid says: The Spanish minister at Tangier telegraphs to the government that the Foreign Minister at Tangier has informed the foreign representatives that the Sultan died of malignant fever, from which he had suffered before. No doctor was present at the time of his death. All the Spanish officers and diplomates here who have recently been in Morocco apprehend serious trouble if the fanatical party, headed by Auley Mahommed, the eldest son of the late Sultan, should resist the proclamation of his brother as Sultan. It appears Auley Mahommed had lately given his father so much offense that he kept him under arrest for some time and remonstrated with him for his ferocity and bad conduct, but had ultimately allowed him to go to Fez. Four brothers of the late Sultan are also likely to prove a source of trouble to

Abdul Aziz. A dispatch to a news agency from Tangier says: According to the certificate of the doctors who attended him, the cause of the Sultan's death was dysenterry. He was conscious until the last, and expressed the desire that Abdul Aziz should succeed him. There is danger of a revolt being organized in favor of Muley Ismail, a brother of the deceased Sultan, who is a popular favorite, and has been acting as the representative of the Sultan at Fez. The ministers and officers of the army have sworn allegiance to Abdul Aziz, who is staying at Rabat. The troops at Casa Blanca have accepted the new sovereign, but the allegiance of the troops at Rabat is doubtful.

Spain Hurrying Forward Troops. MADRID, June 11 .- The Spanish government has requested the European powers to act in concert in Morocco to maintain the statu quo and avert a civil war. The powers, including France, have given notice of their acceptance of this suggestion. The cruiser Garcia has taken on board at Cadiz two companies of marines and will proceed to Rabat, Morocco. The cruiser Conde Venadito has gone to Tangier, to be at the disposal of the Spanish minister in the case of necessity on the occasion of his formal recognition of the new Sultan. Troops in Andalusia have been ordered to be in readiness to proced to Morocco in case of an outbreak at Melilla or Ceuta.

The outlook in Africa is regarded as gloomy, and reinforcements of troops have been ordered to Melilla and other Spanish settlements in Morocco.

THEIR SURRENDER DEMANDED. Salvadorians Want the Refugees on

Board the Bennington. LA LIBERTAD, Salvador, June 11.-The newly-organized government is making desperate efforts to secure the surrender of the refugees aboard the United States steamship Bennington. After making formal remonstrance against the extension of asylum to the late Vice President and his staff, President Guttierraz has made a demand upon M. Pollock, the American consul here, for the surrender of the men. For the time being he waives entirely the question of right of asylum, and, charging that these officials of the late government have been guilty of robbery and embezzle-ment, demands their surrender under Article 2 of the extradition treaty negotiated with the United States in 1870. Consul Pollock consulted over this new phase of the case with Commander Thomas, of the Bennington, and then informed the government that he would not meet the demand until instructed to do so by the Washington offi-cials. He was served with extradition papers regularly drawn and then cabled an account of the affair to Washington. So far he has not had a response. Meanwhile the refugees are being detained on the Bennington and will not be permitted to take passage on the coasting steamers to a port of safety. The refugees insist that this move of Guttierraz is nothing more than a pretext to obtain their surrender, when he will promptly avenge himself by punishing them for political reasons. The impression is general, however, that they must be surrendered, as all due legal forms have been observed in making the demand, but the United States consul will probably require a guarantee that the refugees shall be tried only on the criminal charges specified.

The Administration's Dilemma. WASHINGTON, June 11. - Captain Thomas's action in affording asylum to fugitive officers of the defunct Ezeta government on board his ship, the Bennington, at La Libertad, Salvador, has very much embarrassed our government. For the third time since news of the action reached Washington the matter has been the subject of earnest consultation between the President and Secretaries Gresham and Herbert. To-day the conference lasted nearly an hour. The officials refused to talk about the matter for publication, but it is understood that no positive line of action has been agreed on. The difficulty lies in the fact that while the government would like to repudiate Captain Thomas's action as confirming a dangerous doctrine, it does not care to face the charge of inhumanity in turning over the refugees to almost certain death, and the effort now is

once the precedent and loss of life. New Hungarian Cabinet. BUDA PESTH, June 11 .- The list of the members of Dr. Wekerle's new Cabinet is as follows: Premier and Minister of Fipance, Dr. A. In fact, the story above told is all of John's manufacture, including the money. He stole a horse to escape from pursuing officers. The Horse-thieves Detective Association followed him closer even than the government officers, and because he would not surrender he was filled full of buckshot. Some weeks ago John was brought to the jall here, since which time he has been occupied principally in having shot picked out of him.

Yesterday he pleaded guilty in the federal court to passing counterfeit money, was sentenced to three years and taken to the northern prison without delay. John E. Davis, the Moore's Hill farm hand, also pleaded guilty to a similar charge, and was sent up for two years. Molds, plaster paris and other conlacker's paraphernalia were found in Davis's room. He worked for the township trustee at Moore's Hill. John Jackson, who has been in jail here for several days past, had his bond reduced from \$1,000 to \$500, and was taken back to New Albany, where he will furnish the sum. He is charged with getting a pension for a relative in violation of the pension

LEARNING TO OBEY.

Military Drill in Schools Teaches Children a Needed Lesson.

Philadelphia Press. Military drill in the common schools, be- reading matter that satisfies the the Seventy-seventh street school in New York, and extended to many other grammar schools there, is about to be adopted in Brooklyn. The Boston high school has long had military drill, and it is to be introduced here, but the general practice of military drill in grammar schools has only just begun, though it is certain

to extend On national, physical and moral grounds everything is to be said in its favor, though the most important argument in its behalf is rarely heard. At a recent meeting in Brooklyn it was urged for its physical advantages and its value in adding to the re-sources of national defense by training possible soldiers; but a more important reason exists in the training it gives boys in

full of insubordination. Hosts of children grow up without even learning what it is to obey an order unhesitatingly. Obedience in all its forms, respect for law, for public regulations and for orders is want-ing in American public life. In industrial enterprises, in schools, in the ordinary as-sociations of life it is constantly coming to light that a great many Americans, boys and girls, men and women, do not know

what obedience is. School does something, and if it were not for the tap of school bells and the work of school teachers our American born public, taken in the mass, would be a sadly disorganized and undisciplined mass. Military drill and the touch of milltary discipline it involves, extended through our common school and reaching every boy, would do wonders to teach ready, cheerful obedience to the orders of a lawfully constituted superior. The astonishing advance Germany has made in industrial progress in the past fifteen years rests in a great measure on the ordered, disciplined obedience secured by compulsory military zervice. Such obedience is a great step forward in both the happiness and usefulness of life. Universal military service is not to be thought of here, but universal military drill in the chools would give the same discipline in The American boy needs to learn much, but there is nothing he so much needs to learn as prompt obedience to a lawful order.

"Henry!" "Yes, your excellency?" "I suppose you have noticed that the University of North Carolina has conferred the degree of LL. D. on Hoke Smith?"
"Yes, your excellency, I noticed it in the newspapers." "Henry, you must not let this go any further, but it is my impression that the laws Hoke Smith is suspected of doctor-

THE INDIANAPOLIS

Daily, Sunday and Weekly

The Journal is first of all a newspaper. Its primary object is to publish the news, and to procure this it spares no pains or expense. Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of special correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public.

Its Washington Bureau

Was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of a gentleman well acquaint. ed with the local business and political issues.

It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter.

Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all, it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan bias.

THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice most exacting taste.

The Indiana State Journa!

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1.00, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.
